### Whole Foods Market Delivers Record Q2 Sales and EPS

Sales Increase 10% to Record \$3.6 billion; EPS Increase 14% to Record \$0.44; Company Reaffirms Targets for Fiscal Year 2015 and Announces New Uniquely-Branded Store Concept Geared Toward Millennials

May 6, 2015. Whole Foods Market, Inc. (NASDAQ: WFM) today reported results for the 12-week second quarter ended April 12, 2015. For the quarter, total sales increased 10% to a record \$3.6 billion. Comparable store sales on a constant currency basis increased 3.6%, including an estimated 50 basis point positive impact from Easter shifting from the third quarter last year to the second quarter this year. Earnings before interest, taxes, depreciation and amortization were \$355 million, or 9.7% of sales. Diluted earnings per share were \$0.44, a 14% increase over the prior year. Results include a non-routine supplier credit of \$7 million, or \$0.01 in diluted earnings per share.

During the quarter, the Company produced \$322 million in cash flow from operations and invested \$206 million in capital expenditures, resulting in free cash flow of \$116 million. In addition, the Company returned \$47 million in quarterly dividends to shareholders and repurchased \$47 million of common stock, or 0.9 million shares. The Company ended the quarter with total cash and cash equivalents, restricted cash, and investments of approximately \$1.1 billion. Return on invested capital increased 68 basis points to 15%.

"Our results reflect another quarter of record sales and healthy returns on invested capital," said John Mackey, co-founder and co-chief executive officer of Whole Foods Market. "Our Whole Foods Market brand has helped lead the shift in consciousness toward fresh, healthy foods by offering the highest quality, broadest selection, and best customer service, and we believe we can triple the number of Whole Foods Market stores in the United States. At the same time, we also see an opportunity to leverage our long history of retail innovation and extend our reach in the marketplace."

"Today, we are excited to announce the launch of a new, uniquely-branded store concept unlike anything that currently exists in the marketplace," said Walter Robb, co-chief executive officer of Whole Foods Market. "Offering our industry-leading standards at value prices, this new format will feature a modern, streamlined design, innovative technology and a curated selection. It will deliver a convenient, transparent, and values-oriented experience geared toward millennial shoppers, while appealing to anyone looking for high-quality fresh food at great prices."

The Company is building a team to focus exclusively on this new concept and is currently negotiating leases. The plan is to begin opening stores next year, and given the more standardized design and product assortment, the Company expects a fairly rapid expansion from there. "We believe the growth potential for this new and complementary brand to be as great as it is for our highly successful Whole Foods Market brand," added Robb. "We look forward to sharing more details about this exciting new venture sometime before Labor Day."

The following table provides the Company's comparable store sales results for the second quarter and for the five-week period from March 30, 2015 through May 3, 2015, which includes Easter in both years. Results for the five-week period are adjusted to exclude the estimated impact of Team Member Appreciation Double Discount Day, which was held in the prior year only. Sales of a store are deemed comparable commencing in the 57th full week after the store was opened or acquired and are presented on a constant currency basis. Companies define comparable store sales differently; thus, growth rates across companies may not be comparable.

Constant Currency:	Comparable Store Sales Growth	Change in Transactions	Change in Basket Size
Q2 ended April 12, 2015	3.6%	0.8%	2.8%
Excluding Easter shift	3.1%*		
Five weeks ended May 3, 2015	2.8%		

<sup>\* 5.1%</sup> for the first three weeks and 2.4% for the last nine weeks

Excluding the non-routine supplier credit of \$7 million, or 19 basis points, gross margin declined 12 basis points to 35.7%, primarily due to higher cost of goods sold as a percentage of sales.

SG&A improved 29 basis points to 28.2% of sales due to leverage in salaries and benefits.

Comparable stores sales growth by age class for the trailing four quarters, on a constant currency basis, is provided in the following table.

	Trailing			Average Age
	Four-Quarter Comps	# of Stores	% of Square Footage	(s.f. weighted)
> 11 years	2.3%	167	36%	17
5 to 11 years	3.0%	109	38%	8
< 5 years	9.5%	97	26%	3
All comparable stores	3.9%	373	100%	10

#### **Year-to-Date Results**

For the 28-week period ended April 12, 2015, total sales increased 10% to \$8.3 billion. Comparable store sales increased 4.2%, including an estimated 20 basis point positive impact from Easter shifting from the third quarter last year to the second quarter this year. Average weekly sales per store were \$730,000, translating to sales per gross square foot of approximately \$1,000. Earnings before interest, taxes, depreciation and amortization were \$751 million, or 9.0% of sales. Diluted earnings per share were \$0.90, a 12% increase over the prior year.

Year to date, the Company has produced \$709 million in cash flow from operations and invested \$458 million in capital expenditures, of which \$295 million related to new stores. This resulted in free cash flow of \$251 million. In addition, the Company has paid \$90 million in quarterly dividends to shareholders and repurchased \$90 million of common stock. Subsequent to the end of the quarter, the Company repurchased \$34 million of common stock, leaving \$776 million in authority remaining.

## **Growth and Development**

In the second quarter, the Company opened eleven new stores, including three relocations and three former Dominick's locations. In the third quarter, the Company has opened three new stores, including one former Dominick's location, and expects to open five additional stores, one of which is a former Dominick's location.

The Company recently signed nine new leases, including two relocations and one new market. These leases are located in Jacksonville Beach, FL; Atlanta, GA (two leases); Detroit, MI; Rochester, NY; Houston, TX; Park City, UT; and Washington, D.C. (two leases).

The Company currently has 417 stores totaling approximately 16 million square feet and expects to cross the 500-store mark in fiscal year 2017. Longer term, the Company sees demand for 1,200 Whole Foods Market stores in the United States. The following table provides additional information about the Company's new and acquired stores and development pipeline for stores scheduled to open through fiscal year 2021.

New Store Information	FY14	FY15 YTD	Current Leases Signed
Number of stores (including relocations)	38	23	113
Relocations	1	5	14
Percentage in new markets	55%	9%	20%
Average store size (gross square feet)	37,000	43,000	43,000
Total square footage	1,408,000	983,000	4,891,000
Average pre-opening expense per store (including rent)	\$1.9 mil		
Average pre-opening rent per store	\$0.7 mil		

## Fiscal Year 2015 Targets

The Company's targets for fiscal year 2015 are:

- Sales growth over 9%
- Comparable store sales growth in the low to middle single digits
- Square footage growth of 9% to 10% based on 38 to 42 new stores, including five to six relocations
- EBITDA margin of approximately 9%
- ROIC greater than 14%

The Company expects to continue its value strategy and make additional investments in areas such as technology, marketing, and new and existing stores. The Company believes this is the right strategy to drive sales growth over the longer term. Reflecting its ongoing value efforts, the Company expects a greater decline in gross margin, excluding LIFO, in fiscal year 2015 than in fiscal year 2014. The Company expects to maintain expense discipline and improve its cost structure, with the biggest opportunities coming from internal distribution, coordinated purchasing and labor leverage. While quarterly results may fluctuate, the Company expects diluted earnings per share growth for the fiscal year to be in line with or slightly higher than sales growth.

The Company expects comparable store sales growth in the third quarter to be negatively impacted by approximately 100 basis points from the Easter shift and cycling over Team Member Appreciation Double Discount Day in the prior year. In addition, the Company reported significant LIFO charges in the prior year of \$11 million in the third quarter and \$5 million in the fourth quarter.

#### Seasonality

The Company notes that average weekly sales and gross margin are typically highest in the second and third fiscal quarters, and lowest in the fourth fiscal quarter due to seasonally slower sales during the summer months. Gross margin is also lower in the first fiscal quarter due to the product mix of holiday sales.

#### **About Whole Foods Market**

Founded in 1978 in Austin, Texas, Whole Foods Market is the leading retailer of natural and organic foods, the first national "Certified Organic" grocer, and uniquely positioned as America's Healthiest Grocery Store<sup>TM</sup>. In fiscal year 2014, the Company had sales of approximately \$14 billion and currently has 417 stores in the United States, Canada, and the United Kingdom. Whole Foods Market employs approximately 90,000 team members and has been ranked for 18 consecutive years as one of the "100 Best Companies to Work For" in America by *Fortune* magazine. ## Whole Foods Market, Inc. Non-GAAP Financial Measures (unaudited) (In millions)

In addition to reporting financial results in accordance with generally accepted accounting principles, or GAAP, the Company provides information regarding Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA"), Adjusted EBITDA and Free Cash Flow in the press release as additional information about its operating results. These measures are not in accordance with, or an alternative to, GAAP. The Company's management believes that these presentations provide useful information to management, analysts and investors regarding certain additional financial and business trends relating to its results of operations and financial condition. In addition, management uses these measures for reviewing the financial results of the Company as well as a component of incentive compensation.

The Company defines Adjusted EBITDA as EBITDA plus non-cash share-based payment expense and deferred rent. The following is a tabular reconciliation of the non-GAAP financial measure Adjusted EBITDA to GAAP net income, which the Company believes to be the most directly comparable GAAP financial measure.

		12 week	s en	ded	28 weeks ended			
EBITDA and Adjusted EBITDA	Apri	1 12, 2015	Ap	ril 13, 2014	April 12, 2015	April 13, 2014

## Whole Foods Market, Inc. Non-GAAP Financial Measures (unaudited) (In millions)

In addition to reporting financial results in accordance with generally accepted accounting principles, or GAAP, the Company provides information regarding Return on Invested Capital ("ROIC") as additional information about its operating results. This measure is not in accordance with, or an alternative to, GAAP. The Company's management believes this presentation provides useful information to management, analysts and investors regarding certain additional financial and business trends relating to its results of operations and financial condition. In addition, management uses this measure for reviewing the financial results of the Company as well as a component of incentive compensation. The Company defines ROIC as adjusted earnings divided by average invested capital. Adjustments to earnings are defined in the following tabular reconciliation. Invested capital reflects a trailing four-quarter average.
